

How do you know there is a God?

The argument to the First Mover (or First Energizer)

Nothing moves of itself.

Even you –

Need food –

To give you strength to move.

Don't eat for a few weeks - and see if you move –

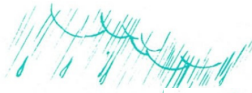

Where does the food get the energy to give you?

From the ground –

From the rain –

From the sun –

But where did these things get the energy to give it to the food you eat to give you energy?

From the **FIRST MOVER**, **THE FIRST ENERGIZER** of all things.

That First Mover we call - God

(The only alternative is an unending series of things in motion-which is impossible because, no matter how long a rope is, it will never move unless it's pulled. Or, to put it another way... can a dozen blind men see?)
