

# How do you know there is a God?

## The Argument to the Great Lawmaker

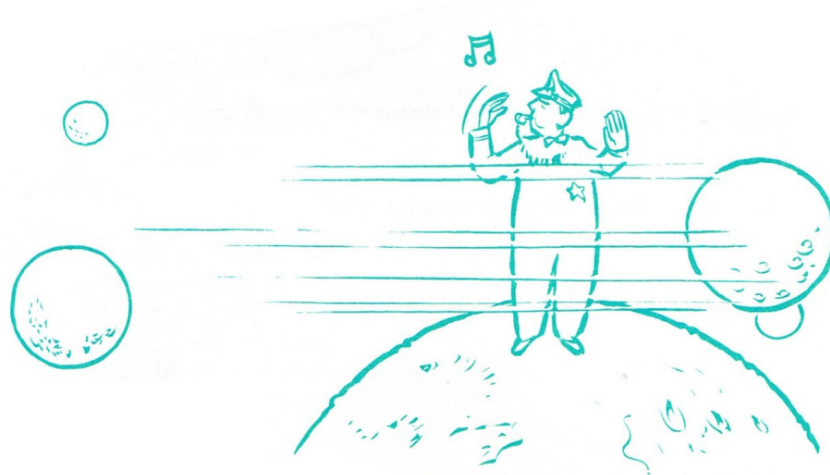

The universe has laws:

There are laws of physics (e.g. Gravity)

There are laws of chemistry (e.g., 2 parts of H and 1 part of O makes water)

There are laws of astronomy (the courses of the planets, - the traffic laws of the skies)

Laws demand a lawgiver.

The great laws of the universe demand a Great Lawmaker.

**That Great Lawmaker we call - God**
